Holly

I'M HOLLY

I'm a Wedding, Elopement and Lifestyle photographer who's obsessed with finding the beauty in the most simple things in life.

My work combines a documentary approach with a creative flair and a splash of boho vibes. I am often inspired by nature and my favourite shoots are the ones outdoors in vast spaces.

WHAT *to expect*

"We had the pleasure of holly photographing our wedding. Safe to say we made the best choice. Everything was so natural, to the point I didn't even realise she was there when I arrived. Holly herself is very friendly, laid back and not a photographer that puts any pressure on you. If you want your wedding photographed to a high quality. Look no further."

ENGAGEMENT *Session*

3 REASONS ENGAGEMENT SHOOTS ARE GREAT

1. It helps you get used to being in front of the camera.

Being in front of the camera, and the thought of having a photographer follow you around for a whole day can feel a little daunting, so an engagement shoot is a great way of getting to know your photographer better, and gives you the chance to feel more comfortable having your photo taken.

2. Use the photos on invites and save the date cards.

Name a better way to make your save the dates even more personal...

3. Remember the newly engaged feeling forever.

You only plan on getting engaged once right? So capture the moment, frame it and treasure that feeling forever.

THE 3 C'S – *colour, comfort & compliment*

COLOUR

My style lends itself to neutral and earthy tones so consider this when choosing your outfit for your shoot. White is great too and I'd always recommend wearing a solid colour rather than busy prints.

COMFORT

Your outfits want to compliment each other, not match! Try and stick to the same colour family and vibe.

COMPLIMENT

It's so important to wear something that you feel comfortable in to your couple's shoot! These photos should reflect who you are as individuals and as a couple, so it's important you feel most like your most authentic self.

WEDDING DAY

photo tips

LAUGH

Don't hold back on the laughter! As your photographer, I'll be looking out for those funny moments and real belly laughs as these are the kind of authentic moments that look great on the camera. Plus you'll want to look back at the photos and remember how much fun you had!

TOUCH

I know it can feel weird having intimate moments whilst someone is taking photos of you but you're in love right? So please touch each other! Place your hands on each other, hold hands, cuddle, kiss, do whatever feels natural to you! I'll also give you some prompts to make sure no one feels uncomfortable.

LOOK

Just because you're having your photo taken, doesn't mean you can't look at one another. In fact, I often encourage my couples to look at each other rather than at the camera as it feels more intimate and authentic this way.

FIRST LOOK *or* DOWN *the* AISLE

Do you break tradition and see each other before the ceremony or do you wait? This is a tricky decision for some, but it's all down to personal preference! There are pros and cons to each so it's important you choose to do what feels right for you as a couple.

FIRST LOOK OR FIRST TOUCH

This is a fairly new where couples decide to see each other before the ceremony. It provides couples with an intimate moment in private and gives you the opportunity to get an amazing moment captured with no one else around. If you don't want to go for the full look then the 'first touch' is a great halfway!

DOWN THE AISLE

Tradition says that couple's shouldn't see each other until you're walking down the aisle, and for many couples, this is all part of wedding magic. Waiting to see each other means your guests get to be part of this special moment and watch both of you as you see each other for the first time on your wedding day.

IT'S ALL IN
The details

IT'S ALWAYS THE SMALL PIECES THAT MAKE THE BIGGER PICTURE

Your photographer will want to make sure they capture every little bit of your big day, so if there's certain things that you don't want to go unnoticed, make sure you let your photographer know about them!

Whilst you're getting ready, your photographer will take the opportunity to sneak into another room and get some shots of the important wedding details that you'll want to remember forever. It's always super helpful when the details are collected and ready to go in one place so that your photographer knows they've got everything and can focus on arranging them.

“If you are considering Holly as your photographer, I wouldn’t even give it a second thought.

We were lucky enough to have Holly as our wedding photographer, she brought professionalism, creativity, kindness and fun throughout the day.

As a couple who never take any photos, Holly made it feel effortless.

We have an album full of beautiful photos to remember our day. Holly was truly a joy to have with us and if we had to do it all over again, I would chose Holly every time.”

FREQUENTLY *Asked Questions*

HOW LONG WILL IT TAKE TO GET THE PHOTOS BACK?

You will always receive a selection of sneak peek photos within 72 hours of your wedding and I aim to get the full album delivered to you within 3 - 4 weeks.

IS THERE A SECOND SHOOTER OPTION?

Absolutely! A second shooter is a great option if you want to capture both the bride and groom getting ready in the morning. It also means that while you're with your photographer, the second shooter can be capturing guest photos so you won't miss a thing! You don't need to worry about sourcing a second photographer, I'll do that for you.

DO YOU DO WEDDINGS OUTSIDE OF SUFFOLK?

YES! I love to travel and explore new places, so if you love my work and want me to capture your special day then I am ready, even if your wedding is in Mexico or Bali!
